Libraries
- GSAP
- ScrollTrigger

Languages

- **English**: fluent
- **Danish**: begginer
- **Slovak**: native speaker
- **Czech**: fluent

About me

I am a 21-year-old student from Slovakia. In my spare time, I love going for a long walk in a nature. In Denmark, I developed gardening as a new hobby. I find it satistfying taking care of plants and see them blossom thanks to my care. I find myself as an outgoing person who likes to spend time with friends. I am as well a big music lover who is open to all kinds of genres.
